

APPLICATION PROGRAMMING IN FOXPRO

- 1 **What is the Full Form of DBMS?**
A) Data Base Management System B) Data Board Machanism System C) Data Base Maintains System D) None
ANS) A
- 2 **What is the Full Form of RDBMS?**
A) Realtime Database Management System
B) Relational Database Management System
C) Resources Data Management System
D) All of them
ANS) B
- 3 **What is ERD?**
A) Engineering Research Diagram B) Electric Resource Diagram
C) Entity Relationship Diagram D) All of them
ANS) C
- 4 **What is Relation?**
A) Relation B) Similarity C) Dissimilarity D) None ANS) A
- 5 **Which Command is used to Create a Command File?**
A) Create B) Use C) Modify Command D) Command ANS) C
- 6 **Which Command is used to Modify the Command File?**
A) Create B) Modify C) Use D) Modify Command ANS) D
- 7 **Which Command is used to Execute a Command File?**
A) Do...While B) Do C) List D) Run ANS) B
- 8 **Which Datatype is used to store Numerical Information?**
A) Numeric B) Float C) General D) Both A and B ANS) D
- 9 **Which Datatype is used to store Character type of Information?**
A) Memo B) Character C) Both A and B D) Logical ANS) C
- 10 **Which Datatype can store Date type of Information?**
A) Date B) Numeric C) Float D) None ANS) A
- 11 **Which Operator is not an Arithmetic Operator?**
A) * B) # C) ^ D) + ANS) B
- 12 **Which Operator is not an Relational Operator?**
A) = B) <> C) # D) Not ANS) D
- 13 **Identify which is the Logical Operator?**
A) OR B) && C) Both A and B D) None ANS) C
- 14 **Which Extension is not related in FoxPro?**
A) .dbf B) .c C) .idx D) .prg ANS) B

- 15 Which Command is used to Create a Database File?
A) Create B) Use C) Do D) Modify Command ANS) A
- 16 Using _____ Command Database Structure is Modified.
A) Modify Command B) Modify Structure
C) Modify Database D) None ANS) B
- 17 Which Command is used to Open a Database File?
Do B) Undo C) Open D) Use ANS) D
- 18 Which Command is used to Close a Database File?
A) Clear All B) Close All C) Use D) None ANS) C
- 19 Append Window will open with the help of _____ Command?
A) Append Blank B) Append C) Append From D) None ANS) B
- 20 How we can insert Blank Record in the Database File?
A) Append Blank B) Append C) Append From D) None ANS) A
- 21 How it is possible to add records at the end of current database from another database?
A) Append Blank B) Append C) Append From D) None ANS) C
- 22 Which Command is useful for entering new record at current location?
A) Go Insert C) Append D) Skip ANS) B
- 23 Which Command is used to Navigate beginning of file?
A) Append B) Go Top C) End D) None ANS) B
- 24 Which Command is used to set the current record pointer?
A) Go Top B) Go Bottom C) Go Record <no> D) None ANS) C
- 25 Which Command is used to move record pointer forward?
A) List Edit C) Recall D) Skip ANS) D
- 26 Which Command is used to Open an Editing Window?
A) List Edit C) Delete D) Modify ANS) B
- 27 Which Clause is used to view desired fields from the Database?
A) Fields B) While C) For D) Both B and C ANS) A
- 28 Which Clause is used to specify condition to view desired records?
A) Fields B) While C) For D) Both B and C ANS) D
- 29 By using _____ command we can delete records logically.
A) Delete All B) Recall All C) Pack D) Zap ANS) A
- 30 Remove the records permanently from the logically deleted records?
A) Delete All B) Recall All C) Pack D) Zap ANS) C
- 31 Remove all the records permanently including logically deleted records?
A) Delete All B) Recall All C) Pack D) Zap ANS) D

- 32 Get the records permanently from the logically deleted records?
A)Delete All B) Recall All C) PackD) Zap ANS) B
- 33 Which command is used to store information, mathematical calculations & other operations?
A)List Edit C) Replace D) None ANS) C
- 34 After giving Locate command, which command is used to search another information?
A)Continue B) Next C) Both A and B D) None ANS) B
- 35 Which command is used to store data in array from the database?
A)Scatter B) Gather C) Both A and B D) None ANS) A
- 36 Which command is used to store data in database from the array?
A)Scatter B)Gather C) Both A and B D) None ANS) B
- 37 _____ command is used to index the database.
A)Select B) Sort C) Index D) None ANS) C
- 38 Which command is used to Refresh the Index File?
A)Reindex B) Replace C) Change D) None ANS) A
- 39 Which command full fills the requirement after index an database?
A)Locate B) Find C) SeekD) All of them ANS) D
- 40 Which command is used to load file memory?
A)Select B) Use C) Both A and B D) None ANS) B
- 41 While inserting record which command is used to carry data from the existing record pointer?
A)Set Carry OnB) Set Carry Off
C) Set Carry Next D) Set Carry Forward ANS) A
- 42 While Saving & Deleting a file which SET command is used to prompt for verifications?
A)Set Safety On B) Set Safety Off C) Set Confirm On
D) Set Confirm Off ANS) A
- 43 While inserting Values in database field, _____ command is stop the Control/Object Navigation/Focus.
A)Set Safety On B) Set Safety Off C) Set Confirm On D) Set Confirm Off
ANS) C
- 44 Which SET command is used to change foreground & background colour at specific portion of the screen?
A)Set Color B) Set Color With C) Set Color ToD) Set Color For
ANS) A
- 45 Which SET command is used to Set 4 digits of the Year in date format ?
A)Set Date to British B) Set Century On C) Set Date to American SD) et Century
Off ANS) B
- 46 To set American Format {mm/dd/yy}?
A)Set Date to AmericanB) Set Date to MDY C) Both A and B D) None ANS) C
- 47 By which command is Delimiter starts & stops?
A)Set Delimiter On B) Set Delimiter Off C) Set Delimiter To D) All of them ANS) D

- 48 Which SET Command is used to separate Date Format?
A)Set Mark To B) Set Message To C) Set Filter To D) None
ANS) A
- 49 _____ is used to save the output?
A)Set Alternate To B) Set Alternate On C) Set Alternate Off D) Both A and B
ANS) B
- 50 What is the use of Question Mark "?" Command?
A)To print in new line B) To print in same line C) To print through printer D) No Use
ANS) A
- 51 What is the use of Double Question Mark "??" Command?
A)To print in new line B) To print in same line C) To print through printer D) No Use
ANS) B
- 52 What is the use of Triple Question Mark "???" Command?
A)To print in new line B) To print in same line C) To print through printer D) No Use
ANS) C
- 53 Which command is used to give comments?
A)* B) && C) // D) Both A and B ANS) D
- 54 Which command is to get string type of values?
A)Input Accept C) Both A and B D) None ANS) B
- 55 Which command is to get numeric type of values?
A)Input Accept C) Both A and B D) None ANS) A
- 56 To Print at specific Coordinate on the screen?
A)@R,C SAY B) @R to C GET C) @R,C D) None ANS) A
- 57 Which command is used to draw a Box on the screen?
A)@R,C TO R,C B) @R1, C1, R2, C2 BOX C) Both A and B
D) None ANS) C
- 58 To Clear Specific portion of the Screen.
A)@R, C CLEAR B) @R, C CLEAR TO R2, C2 C) Both A and B
D) None ANS) C
- 59 To idle screen output for a while.
A)Clear B)Wait C) Read D) Both B and C ANS) D
- 60 IF conditions becomes to true, then which part is executed?
A)True Part B) False Part C) Both A and B D) None
ANS) A
- 61 For using Condition inside IF condition?
A)Joining B) Nesting C) Multiple Conditions D) None ANS) B
- 62 If Different cases are false then which part is executed?
A)Otherwise B) Default C) Case Else D) None ANS) A

- 63 One or more conditions are checked in IF Condition is known as?
A) True Part B) False Part C) Multiple D) Single ANS) C
- 64 Do Case is Known as ?
A) Nested IF B) Nested FOR C) Branching Command D) None
ANS) C
- 65 Which is the Looping Commands?
A) For ... EndFor B) Do While ... EndDo C) Scan ... EndScan
D) All of them ANS) D
- 66 Which Command is used to terminate the Loop?
A) Break B) Exit C) Both A and B D) Loop ANS) B
- 67 Which clause is used with Scan command?
A) FOR WHILE B) WHILE C) Both A and B D) None ANS) C
- 68 Which variable accepts the Procedure values?
A) Parameter B) Variable C) Both A and B D) No use of declaring
ANS) A
- 69 Which command is used to identify that Procedure is finished?
A) Finish B) Return C) EndProc D) Resume ANS) B
- 70 Indexing is been made on _____
A) Ascending B) Descending C) Both A and B D) None ANS) C
- 71 Which command is used to skip commands in Loop?
A) Skip Loop B) Exit C) Continue D) None ANS) B
- 72 For Keyword is used for?
A) Looping B) For Conditional Requirement Parameters
C) Both A and B D) None ANS) C
- 73 Which Command is used to change the existing value with new value?
A) Replace B) Scan C) IF D) None ANS) A
- 74 Which is the Aggregate Functions?
A) Sum B) Average C) Max D) All of them ANS) D
- 75 In which Fields has more data storage?
A) Memo B) General C) Float D) Character ANS) A
- 76 COPY TO command is used for
A) To Copy the File B) To Move the File
C) To Rename the File D) To Copy the data into another File
ANS) D
- 77 Which DataType is not available in FoxPro?
A) Numeric B) Float C) Double D) All of them ANS) C
- 78 To read the values from the Keyboard which command is used?

A)@R, C SAY B) @ R, C GET <Var.> C) ? D) ??? ANS) B

- 79 Which command is used to input values from the keyboard?
A)SET B) READ C) WRITE D) DELETE ANS) B
- 80 Which Alphabet character gives same output while using UPPER() Function?
A)a B) b C) c D) ! ANS)D
- 81 Which Function return current Date?
A)Date() B) Time() C) Year() D) Day() ANS) A
- 82 Which Command is used to create Program file?
A)Create <filename> B) New Program <filename>
C) USE <filename> D) Modify Command <filename> ANS) D
- 83 Which Command is used to create the Report file?
A)Create <filename> B) Create Report <filename>
C) New Report <filename>D) Modify Report <filename> ANS) B
- 84 Which Command is used to change the Report file?
A)Modify Report <filename> B) Create Report <filename>
C) New Report <filename> D) Change Report <filename> ANS) A
- 85 Which Command is used to View preview of the Report file?
A)Preview <filename> B) Report Preview <filename>
C) Report Form <filename> Preview
D) Report From <filename> Preview ANS) C
- 86 Which Command is used to Create the Label file?
A)Create Label <filename> B) New Label <filename>
C) New <filename> D) Label <filename> ANS) A
